DESIGNED BY MARTIN BRATTRUD STUDIO

Japanese for “flower”, it is fitting that Hana sprang to life after a long, wet Southern California winter. Spun aluminum forms come from two distinct molds that can be finished with either end up, providing four unique expressions. Profiles are shaped to fit together, so Hana can be clustered tightly or spaced apart. Vibrant and lively in our newly refreshed range of earth-inspired powder coat colors and metallics, Hana enlivens any space where mobile and rugged occasional tables can be used.
