DESIGNED BY BRIAN GRAHAM

Layer softness into communal spaces in a brand new way. Lomita abandons conventional table materiality with its pedestal base that combines upholstery and metal, unleashing a new world of possible material expressions. Optional power and data components are neatly stowed and serviceable within either pedestal, while interfaces can be integrated into the table top to meet the unique needs of any project. Available in dining, counter and communal heights with two depth options and a range of lengths.
