# TRESTLES

Design by Brian Graham

## TRESTLES POWER OPTIONS, NOW AVAILABLE FROM MARTIN BRATTRUD

Trestles is now highly configurable with a range of new power options including task lighting, USB-A and USB-C charging, wireless charging, and power. Organized into simple-to-specify packages, Trestles brings increased functionality to an even wider array of contract environments.

A model of elegance and utility, Trestles makes it possible to sit at any position around the table perimeter—an objective achieved by a top with rounded corners and a sleek metal base that averts any lack of legroom. Multiple material and finish choices allow for true aesthetic distinction. Optional casters address the dynamic nature of modern work settings. Trestles is available as a Communal Table, Counter Height Table or Dining Table.

### PRODUCT HIGHLIGHTS

- USB-A and USB-C charging and power available as in-surface or apron mounted
- Wireless charging
- Task lighting
- Power packages available in black or white

## **DESIGN BY BRIAN GRAHAM**

Designer. Advocate. Advisor. Brian offers a strategic approach in the design, development and marketing of workplace furniture. An interior designer who evolved into a furniture designer, Brian's work has been recognized by the American Institute of Architects (AIA), The International Interior Design Association (IIDA), The Industrial Design Society of America (IDSA), The International Facilities Management Association and The Chicago Athenaeum Museum of Architecture & Design's GOOD Design Program.

For Martin Brattrud, Brian has designed the Braemar, Fold, Medinah and Reveal collections, as well as Jetty and Tripod tables.

## **ABOUT MARTIN BRATTRUD:**

Located in the South Bay of Los Angeles, California, Martin Brattrud is a leading manufacturer of hand crafted seating and tables for the contract market. With extensive custom capabilities, the company is renowned for banquettes and benchmade upholstery. Martin Brattrud is led by design, forging partnerships with the industry's top designers. At the same time, the health of the team and the environment drives the Martin Brattrud manufacturing ethos. Thoughtful design, low environmental impact manufacturing, and product longevity combine in each piece Martin Brattrud creates.
